

# Managed Skilled Workforce

## KEY INSIGHTS

Contribute 20 million man hours per year

National footprint of over 60 branches Australia-wide

Proven industry leader in providing safe, productive workforce services

Programmed Skilled Workforce is Australia and New Zealand's largest supplier of managed skilled workforce services. Our varied experience extends from managing large teams to short-term temporary staffing.

We provide employees on a temporary, contract and permanent basis across a range of industries, including: mining, transport and logistics, manufacturing, construction, rail, FMCG, telecommunications and many more.

Programmed can help you increase productivity by:

- Tailoring a workforce solution that works for your business
- Labour hire on a short-term, contract or ongoing basis
- An entire outsourced workforce for temporary, seasonal or operational needs
- End to end workforce management, covering each phase of the employment lifecycle from planning, sourcing, preparing and placing to on-site employee management

Our size and experience ensures security of supply. As Australia's largest workforce solutions provider, Programmed is proud to:

- Contribute in excess of 20 million man hours to Australian industry each year
- Demonstrate flexibility and capacity to invest in innovative systems as well as take on significant new projects
- Support a national footprint with over 60 branches Australia-wide
- Lead the industry through rigorous quality-assurance and risk mitigation processes

Programmed supports customers beyond just placing employees. We:

- Find the people you need through diverse sourcing channels and quality-assured recruitment processes
- Have industry-leading safety systems that deliver safer people and worksites
- Indigenous recruitment and employment to help you meet diversity targets
- Provide Workplace Relations expertise to help create and maintain a harmonious workplace
- Drive process improvement by sharing knowledge gained from our diverse industry experience
