

# Mining and Resources

## KEY INSIGHTS

Over 30 years in the mining sector

Support workers in FIFO and DIDO arrangements

We support you in areas such as safety and Indigenous employment

Programmed understands the skills and key competencies employees must have to support your operation. We have invested in our recruitment processes to make sure we find you the right person for the job.

Programmed is a leading supplier to mining, resources and oil and gas businesses throughout Australia, including remote areas. We have supplied resource workforces of over 500 on an ongoing basis.

A key focus for us has always been the resources sector. For over 30 years we have developed an intimate understanding of the specific needs of the mining sector and the day-to-day labour requirements. We have extensive experience in supplying workforces and maintenance services of varying sizes across Australia's resource sector.

### Currently we supply across a broad scope of classifications to the mining industry including:

- Operators
- Trainees and Apprentices
- Trades
- Semi-skilled
- White collar
- Professional
- Technical roles

We have demonstrated our commitment and experience to servicing through the development of site-specific management plans, the proactive management of our employees and our strong focus on workplace safety.

### As sector specialists, we:

- Have proven ability to perform to the highest safety standards in challenging mining environments
- Understand the complexity and physical requirements of mining jobs
- Use exclusive flexibility screening processes to identify workers at risk of injury
- Support workers in FIFO and DIDO arrangements
- Understand PPE and uniform requirements for jobs in the mining sector
